Web & Graphic Designer | 07.02.1990, Warsaw, Poland

I love my work at all its stages – from interviews and research, planning and preparing content, through the creative process and, finally, to publication. Every website and graphic project I make is different. Each one has to be treated individually, well thought out and properly executed. It's never boring – it can be challenging, but it's always interesting, and gives a lot of satisfaction!

EDUCATION

Currently – British Academy of Photography (BAPH), London / **student (BTEC – Higher National Diploma)**
Currently– EITCA, European Information Technologies Certification Academy / **IT Security Certificate**
